(30)

Girijananda Chowdhury University, Guwahati 781017, Assam
School of Engineering and Technology, Civil Engineering Department
Formative Assessment – II (4th Semester)
CE-BCE23404T – Hydraulic Engineering

23rd May, 2026
Duration: 1 hour

Total Marks: 20

---

1. Define HGL and TEL. **(4)**
2. Find the diameter of a pipe of length 2500 m when the rate of flow of water through the pipe is 0.25 m^3/sec and head loss due to friction is 5 m. Take C = 50 in Chezy's formula. **(6)**
3. Find the expression for force exerted and work done by a jet of water on a moving curved plate (jet striking at the centre of plate). Also establish the condition for maximum efficiency. **(10)**
