

MACHINING

Aim: Identify the following shaper machine parts

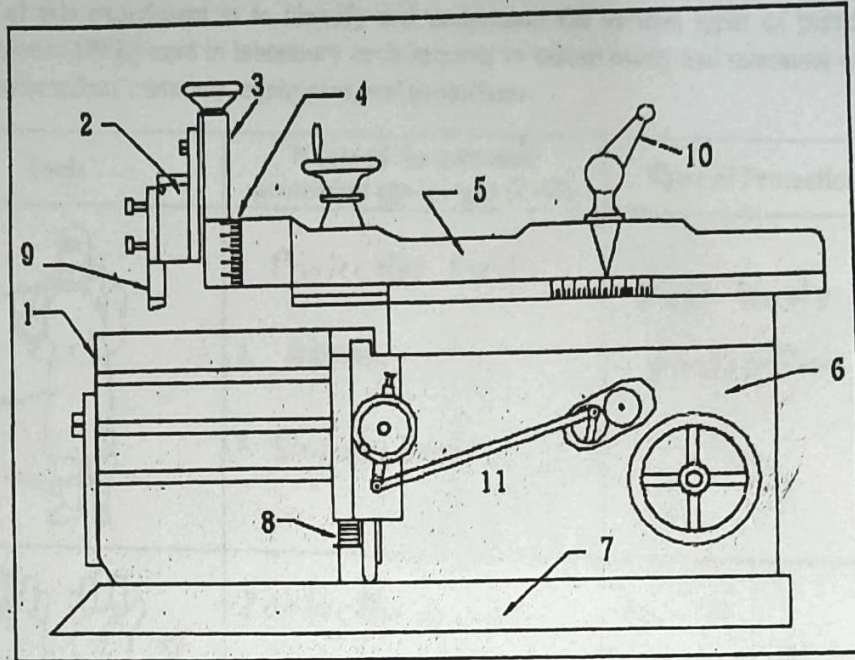

Fig: Shaper machine

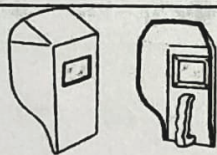

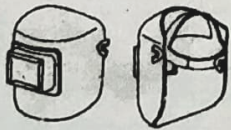

Sl. No	Name of the parts
1	Vice
2	Clapper box
3	Tool slide
4	Swivel Swivel base
5	Ram
6	Frame
7	Base
8	Elevating screw
9	Tool
10	Ram Lacking Handle
11	Crank handle

WELDING

Aim1: To identify different types of personal protective equipments.

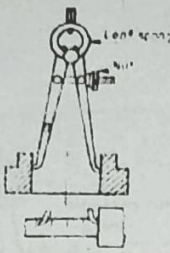

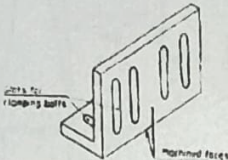

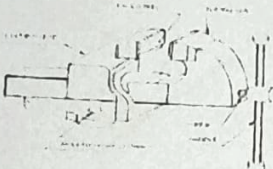

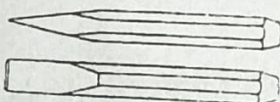

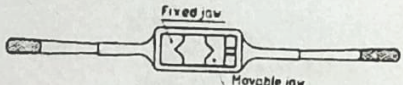

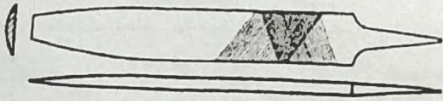

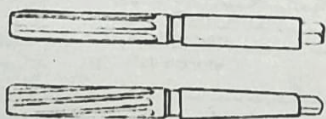

Objective

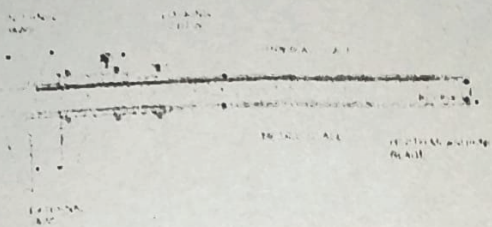

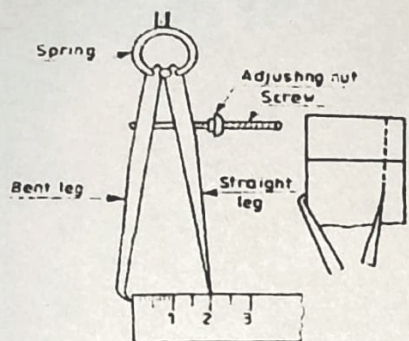

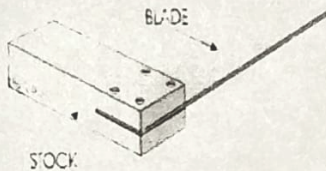

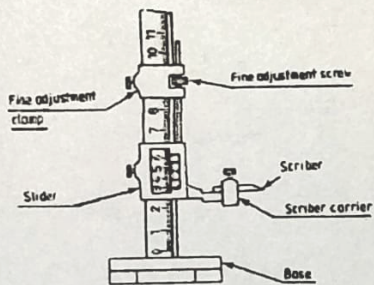

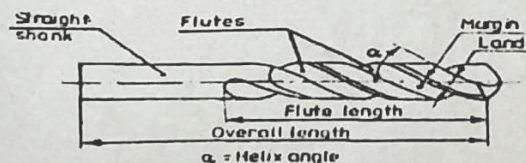

The objective of this experiment is to identify and understand the various types of personal protective equipment (PPE) used in laboratory environments to ensure safety and minimize risks associated with hazardous materials, equipment, and procedures.

Sl. No	Tools	Name of the personal protection equipment (PPE)	Type of Protection
1		1. Protective suit 2. Apron 3. Safety boots	Full body protection
2		protective gloves	Hand protection
3		safety shoes	Foot protection
4		welding shield	Face protection
5		welding Helmet	Face protection
6		Safety Goggles	Eye protection

FITTING

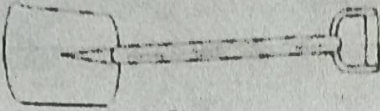

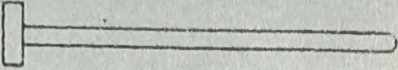

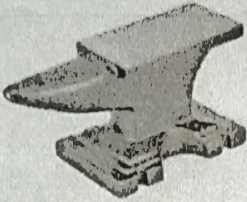

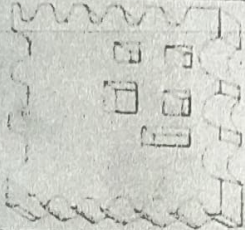

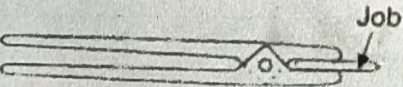

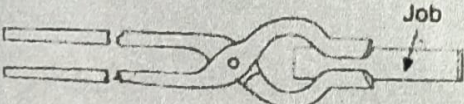

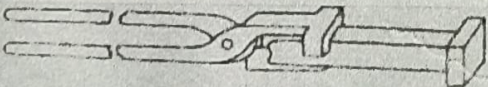

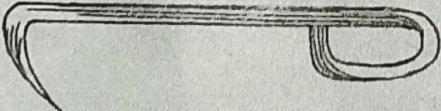

Aim 1: Identify the following fitting tools

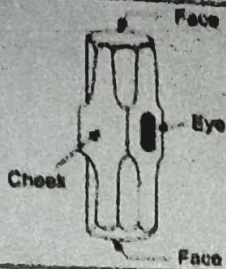

Sl. No	Tools	Name of the tool	Type of Tool (Holding tool/ Cutting tool/ Measuring Tool/ Finishing tools)
1		Inside Calliper	Measuring Tool
2		Angle plate	Measuring Tool
3		Bench Vice	Holding Tool
4		Flat Chisel	Cutting Tool
5		Tap wrench	Cutting Tool
6		Half-Round File	Finishing Tool
7		Reamers	Finishing Tool

8		Vernier Caliper	Measuring Tool
9		Odd Leg Caliper	Measuring Tool.
10		Try Square	Measuring Tool-
11		Vernier height Gauge	Measuring Tool.
12		Twist drills	Cutting Tool.

BLACKSMITH

Aim 1: To identify the equipments and tools of Smithy Shop

Sl. No	Tools	Name of the tool	Type of Tool (Holding tool/ Striking tool/Hand Tools)
1		Spade	Hand Tool
2		Sledge Hammer	Striking Tool
3		Anvil	Holding Tool
4		Swage Block	Holding Tool
5		Flat long	Hand Tool
6		Round Nage Long	Hand Tool
7		Pick up Long	Hand Tool
8		Handy tool	Hand Tool
