

B.Tech, GCU
Unit Test-II, Sem- 4, Civil Engineering
Subject: Surveying and Geomatics (BCE 23042T)

Time: 1 Hour

Full Marks: 30

(5*1=5)

✓ 1. Fill in the blanks:

- f) The vertical distance between two consecutive contours is known as _____.
- g) The instrument used for carrying out leveling operation is called _____.
- h) The expression for height of instrument is given by _____.
- i) The principle of plane table surveying is _____.
- j) Any surface parallel to the mean spheroidal surface of the earth is called _____.

2. Answer the following:

- f) What do you mean by fiducial edge of the alidade? Define orientation of plane table. What is the function of U-fork in plane table surveying? (1+1+3=5)
- g) What is intersection in plane table surveying? What are its requirements? (2+3=5)
- ✓ h) Define: Leveling, Reduced level, Datum surface, Benchmark and Change point (5)
- ✓ i) A man on the deck of a ship observes a luminous object which is 55.00m above the sea level. If the man's eye level is 12.00m AMSL, find the distance between the man and the object. (5)
- ✓ j) The following are the staff reading taken during a leveling operation. (5)
0.355, 0.485, 0.625, 1.755, 1.895, 2.350, 1.780, 0.345, 0.685, 1.230 & 2.150. The instrument was shifted after 4th reading. Find the RL of the points on which the readings are taken.
